

STATEMENT OF PURPOSE

RS21942

Currently in Idaho Statute, at the time a plat is filed with a county clerk or county recorder, a copy must also be filed. Among the specific requirements in I.C. 50-1310 is the requirement that silver image emulsion be used to make such a copy. Silver image emulsion is costly, rare and currently unavailable. Furthermore, there are suitable alternatives that serve the same permanent purpose. This change allows for such substitutions.

FISCAL NOTE

No fiscal impact.
